It is with regret that, in order to manage our plantation maintenance program, the company needs to make significant changes to our Terms and Conditions of Sale. This change will affect the financial return to our clients and also the ability of clients to determine the timing of the harvest of their trees.

The amended Terms and Conditions of Sale are detailed below but in practical terms there are two main changes to your Purchase Order:

1. The Harvest Fee will increase from 10% to 30% (includes the additional 20% fee)
2. The Harvest Date will be determined by the company not by the client.
